

Product Description

Product Name	ColorVision Spyder2express
Suggested Price	€ 85 VAT excluded
Order Code	S2E100 (English Packaging)
EAN Code	875720000100
Order Code	S2E120 (German Packaging)
EAN Code	875720000155
Order Code	S2E110 (French Packaging)
EAN Code	875720000148
Software Version	English, French, German, Spanish, Italian
Operating System	Windows & Mac
Available since	15 March 2006

Spyder2express - Quick, Easy, Accurate Monitor Calibration

Short Description

The newest member of the award-winning Spyder2 family, Spyder2express provides quick, easy, and accurate monitor calibration. In three easy steps, it gives you precise and realistic on-screen color, true-to-life flesh tones plus flawless shadow detail and highlights. Easy to install and easy-to-use, you don't have to be a color guru to use it. The Spyder2 and its advanced algorithms work behind the scenes to give you the best color experience possible. A must have for photographers, designers, gamers, and anyone who wants accurate color on screen. For Mac and Windows, calibrates all of your CRT, LCD, or laptop monitors for dynamic and consistent color.

Features and Benefits

Spyder2express

- Award-winning Spyder2 colorimeter, the standard for on-screen accuracy, precisely calibrates all of your CRT, LCD, and laptop displays to industry standards.
- Easy Software Wizard guiding you through the calibration process in just a few steps means you don't have to be a color guru.
- New State-of-the-Art Optical Science provides a five-fold increase in color sensitivity over previous technology with a patent-protected light baffle for accurate characterization of LCD displays.
- Sleek, Dual-Phase Hardware Design offers effortless LCD, CRT, and laptop calibration while protecting delicate LCD screens.
- Outstanding Reliability backed by a 2 Year hardware warranty.
- Sophisticated Gray Balance and Tonal Response Algorithms provide demanding users with exceptionally smooth gradient steps and neutral grays.
- Unique Before and After Viewing Feature lets you compare your display with and without calibration.
